

Advanced presenting

One-day, interactive workshop. 9.30am - 4.30pm, April 16 or 24, 2008, Glasgow

By the end of this interactive workshop you will know how to:

- > **Present with greater impact by building on your existing skills.**
- > **Use voice and body language to connect with your audience.**
- > **Prepare stronger visual aids to make your message stick.**
- > **Hold your audience for the whole talk.**
- > **Avoid common mistakes.**

If you are already an experienced presenter but would like to refine and develop your skills and style for greater presence and impact, this one-day, highly interactive event is the workshop for you.

Double Loop Development has teamed up with the Walking Theatre Company to bring you a day of practical tips and exercises to hone your skills and allow you to step up to the next level of presenting. The day will explore why some approaches appeal to audiences and make a lasting impact while others don't. Participants will critically examine their current presenting style and identify areas to work on; for example, voice, breathing, body language. The focus will be on new techniques to improve the quality and impact of your presentations and new approaches to engaging the audience. Practice presentations will be recorded to provide you with a lasting reference.

Because of the intensive nature of the workshop, places will be strictly limited. The workshop cost of £230 + VAT (£270.25) for public sector organisations or £280 + VAT (£329) for private sector organisations covers all course materials including video recording, refreshments and lunch.

To book, call 0131-208 2701, visit www.doubleloopdevelopment.co.uk/events.htm or return the form below to Tigh a' Mhaide, Brig o' Turk, FK17 8HT.
